**INSURE IN THE BEST.**

"The public will have in time to discriminate and judge in regard to Life Insurance and its institutions as in other matters of public and private interest."

**Mutual Benefit**  
**Life Insurance Company.**

Charter Perpetual.

Organized 1845.

**ASSETS, \$26,511,151.**

Receipts in 1872 .....	\$6,869,055 68
Return Premiums or Dividends .....	1,660,426 00
Paid Claims by Death .....	1,911,442 72
Surplus .....	3,511,690 58
Premium Receipts since organization .....	49,761,262 00
Interest " " " .....	10,724,086 29
Paid Losses and Endowments .....	13,230,439 37
" Dividends or Return Premiums .....	12,973,843 13
Number Policies in force .....	39,425
Amount Insured .....	133,006,000 00
Average Expenses to Income, excluding Taxes in 1872 -	8.57 per cent.

The results of its business show that of the entire receipts the Company retain 42.22 per cent. as an insurance fund and surplus; that 47.67 per cent. has been returned to members or their families for losses, return premiums and surrendered Policies; and that only 10.11 per cent. has been expended for all other purposes.

These results are more favorable to the insured than those presented by any other country in the world.

It is strictly mutual, issues all the approved kinds of Policies at the lowest rates sanctioned by experience, and furnishes insurance at its **exact cost**, by its equitable division of surplus made annually or added to Policies.

It will be perceived that this Company is distinguished for careful and successful management. To those seeking a Company combining strength, experience, safety and economy, the Mutual Benefit Life Insurance Company affords the privilege of membership.

## Melodeons and Cabinet Organs.

THE BEST MANUFACTURED.

WARRANTED FOR SIX YEARS.

A GREAT OFFER!!!

### Horace Waters,

481 BROADWAY, NEW YORK.

Will dispose of One Hundred Pianos, Melodeons and Organs of six first-class makers, including Waters', at EXTREMELY LOW PRICES FOR CASH, or will take from \$4 to \$15 monthly until paid; the same to let, and rent applied if purchased. New 7-octave Pianos, modern improvements, for \$275 cash. Now ready, a Concerto Parlor Organ, the most beautiful style and perfect tone ever made. Sheet Music, Music Books, and Music Merchandise. Catalogues Mailed.

### TESTIMONIALS:

The WATERS' Pianos are known as among the very best.—*N. Y. Evangelist.*

HORACE WATERS, 481 Broadway, is famed for the excellence of his Pianos and Organs.—*Evening Post.*

The WATERS' Piano ranks with the best manufactured in America.—*The Independent, N. Y.*

We can speak of the WATERS Pianos from personal knowledge as being of the very best quality.—*Christian Intelligencer.*

We have one of MR. WATERS Pianofortes in our residence. (where it has stood for years) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on said piano, and all pronounce it a superior and FIRST-CLASS INSTRUMENT. Stronger endorsement we could not give.—*Home Journal.*

*Str.*—The organ was duly received, and we return to you the thanks of the Teachers' Association, for your generous donation of seventy-five dollars on the instrument. The organ is all that we expected it to be, and gives entire satisfaction to all.

CHAS. R. DOUGLAS, Washington, D. C.

We are very well pleased with the Organ, which is pronounced a good instrument by those who profess to know.

MR. S. WITT, Fort Littleton, Pa.

So far the WATERS Organs give No. 1 satisfaction—the Mason & Hamlin notwithstanding.

C. F. ECKHART, Dacotah City, Neb.

The Organ you sent is highly appreciated by the freedmen here. It is in the Second Baptist Church, and used at nearly every service. We think the tone is very sweet, and the action remarkably easy. Thanking you for the liberal donation, we remain, yours, respectfully,

H. M. TUPPER, Prin., H. M. SAGE, Assistant, Raleigh, N. C.

To say that we were well pleased with the Organ would be but a faint expression of our gratification. Several of our neighbors have called to see it, and pronounce it "splendid." Please accept my thanks for your kind favor, &c.

Mrs. M. L. BENNETT, Athens, N. Y.

## PREFACE.

---

We herewith present to the public the Ninth Edition of the Long Island Directory, including a Business Directory of the City of Brooklyn, the second city in the Empire State. We have sought each year to enlarge our sphere of observation, and thus attain greater certainty in the collection of materials, and its compilation under the appropriate heads. In this edition we have endeavored to excel all our previous efforts. As a work of referencé, we are satisfied our patrons will find it to be very useful and entirely reliable. In the collection of information we have required our agents to verify their statements, and in no instance to rely upon mere suppositions or hearsay in making out their reports. They have visited every house, and taken down all answers given them by those whose names we have inserted. An experience of fifteen years should enable the publisher to compile a work of commendable utility, which, it is believed, a discerning public will, as heretofore, duly appreciate, and continue to extend to him their liberal patronage. We are thankful to those gentlemen who have kindly aided us in our work, and hope they may realize all the benefits, in making use of the Directory, that their services so justly deserve.

---

Entered according to Act of Congress, in the year 1873, by D. Curtin, in the Office of the Librarian of Congress, Washington, D. C.

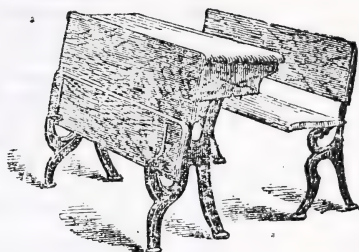

Established 1848.

---

**ROBERT PATON,**

Manufacturer of

**SCHOOL FURNITURE.**

Sole Manufacturer of the

**New Reversible Settee.**

---

**Church & Lecture-room Settees**

**OF EVERY DESCRIPTION.**

THE UNIVERSITY OF CHICAGO PRESS

1. The first part of the paper discusses the importance of the study of the history of the United States. It is argued that a knowledge of the past is essential for a full understanding of the present. The author points out that the United States has a long and rich history, and that it is important to study this history in order to understand the country better. The author also discusses the role of the government in the development of the United States, and the impact of the American Revolution on the country's history.

2. The second part of the paper discusses the role of the American Revolution in the development of the United States. It is argued that the American Revolution was a turning point in the country's history, and that it led to the establishment of a new government. The author also discusses the impact of the American Revolution on the country's culture and society, and the role of the American Revolution in the development of the United States.

3. The third part of the paper discusses the role of the American Revolution in the development of the United States. It is argued that the American Revolution was a turning point in the country's history, and that it led to the establishment of a new government. The author also discusses the impact of the American Revolution on the country's culture and society, and the role of the American Revolution in the development of the United States.

# ST. JOSEPH'S ACADEMY,

FOR YOUNG LADIES,

**Flushing, Long Island.**

---

This Academy, conducted by the SISTERS OF ST. JOSEPH, and under the patronage of Right Rev. J. Loughlin, Bishop of the Diocese, is situated six miles from New York City, Flushing is an old village, long noted for its nurseries and beautiful gardens, and lies upon an inclined plane, rising from the Bay eastward until it overlooks the surrounding country, Flushing Bay, the East River and Long Island Sound, and the Palisades on the Hudson. The Flushing and North Side Railroad runs thirty-eight trains daily between New York and Flushing, making the trip to and from the city of New York in less than half an hour, and the traveling accommodations are unsurpassed. The cars are reached by Thirty-fourth Street Ferry and James Slip.

## COURSE OF STUDIES.

Orthography, Reading, Writing, Grammar, Rhetoric, Logic, Composition, History, Natural Philosophy, Modern and Ancient Geography, Astronomy, Botany, Chemistry, Physiology, Biography, Arithmetic, Book-keeping, Algebra, and Geometry, German, French and Latin Languages, Music on the Piano, Organ and Harp, Vocal Music, Drawing and Painting in Water Colors, Plain and Ornamental Needle-work; Wax, Hair Work, &c.

The year is divided into two equal sessions; the first commencing the 1st of September, the second the 1st of February.

## TERMS.

BOARD AND TUITION, WITH USE OF LIBRARY, per session, payable in advance, . . . . .	\$120 00
WASHING AND MENDING, WITH USE OF BED AND BED- ING, per annum, . . . . .	10 00

## MUSIC EXTRA.

Pupils of all denominations received; and, while the utmost care is taken in the religious instruction of the children of Catholic parents, there is no interference with the children of those of a different belief. For the sake of good discipline all are required to be present at the public exercises.

For further particulars apply to the Rev. Clergy of the Diocese.

**WILD'S**

**Celebrated Prize Candy.**

In neat and tasty Boxes,  
Brimfull of Sweets so pure,  
Sweet Saccharine invites thee,  
With GOLD and SILVER pure.

Perchance a twenty gold piece,  
Perchance (in scrip) a five,  
Perchance (in stamps) a dollar,  
But money in each hive.

What's more! Silver, too, within  
These packages unique,  
Confections rare and many,  
With nickles in the sweep.

## Athenaeum Seminary

**For Young Ladies,**

Corner of Clinton and Atlantic Sts.,

Entrance on Clinton St.

**BROOKLYN, N. Y.**

---

**Prof. GEO. N. BIGELOW, A. M.,**

AND

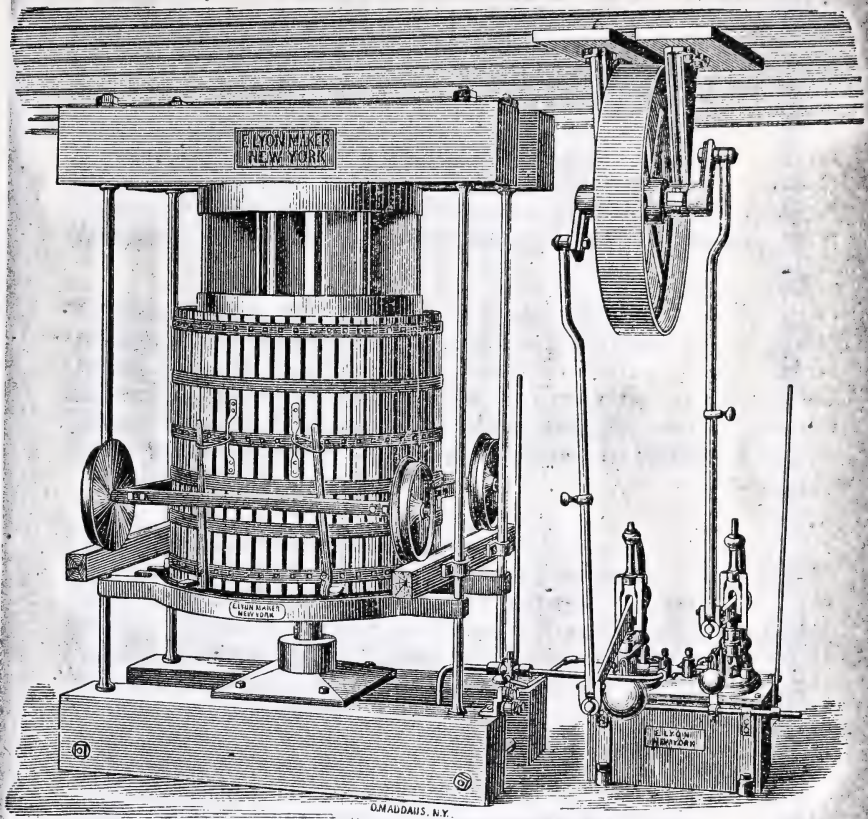

**Rev. J. F. BIGELOW, D. D.,**  
Principals.

---

The Messieurs Bigelow are assisted by an able corps of teachers, all of whom were trained at the State Normal School, Framingham, Mass., as pupils, and afterwards as teachers, when that institution was under the charge of Prof. Bigelow.

The course of instruction is complete and thorough, embracing the Elementary and Higher English Branches, Languages, Literature, Elocution, Natural and Mental Sciences, Ancient and Modern Languages, &c.

The undersigned, thankful for past favors from his numerous customers and friends in the **MENHADEN OIL BUSINESS**, would make them further acquainted by the above illustration, of the various improvements he has made in the perfect adaptation of the **HYDRAULIC PRESS** to the ease and rapid method of expressing Oil from **Fish, Cider from Apples, Wine from Grapes**, and other substances of a like nature. This Press consists of a Hydraulic Ram and Cylinder, of sixty or more tons pressure, Rods of Iron, Platens of Wood or iron, with Double Hydraulic Force Pumps and connections. These Pumps may be run by power or by hand, are so arranged by valves, that the Press may be run up, stopped, or lowered, at any point of its movement. The person working the Press, by the use of these Valves has the most perfect control of the Pumps. These Valves and Pump Packings are so arranged, that they may easily be taken out, or put in without disarranging any other part of the Pump. This Hydraulic Press, arranged in the manner described, is capable of pressing, from **two to three hundred thousand Fish** in ten hours. Also, Hydraulic Jacks, and Punches, make single or double Hydraulic Stop Valves, Relief and Check Valves, Hydraulic Pipe Couplings, Hydraulic Pipe, Turbs of Wood and Iron, Truck and Car Wheeles, Axles, Patent Clutch Pulleys, Shafting, Hangers, Pullies and Gearing, Steam Pipe and Fittings. **Pattern Making, Blacksmithing and Repairs**, promptly attended to.

Gelston George S. h Fort Hamilton  
Gould John, dealer, h Bay Ridge

The first part of the book is devoted to a general introduction to the theory of the firm. It begins with a discussion of the basic concepts of production, cost, and profit. The author then proceeds to a detailed analysis of the firm's decision-making process, taking into account the various constraints and objectives that it faces. This part of the book is particularly useful for students who are new to the subject, as it provides a clear and concise overview of the key issues.

The second part of the book is devoted to a more detailed analysis of the firm's behavior. It begins with a discussion of the firm's production function, which is the relationship between the inputs used in production and the output produced. The author then discusses the firm's cost function, which is the relationship between the inputs used and the total cost of production. This part of the book is particularly useful for students who are interested in the microeconomic behavior of the firm.

The third part of the book is devoted to a discussion of the firm's market structure. It begins with a discussion of perfect competition, which is a market structure in which there are many small firms that are price takers. The author then discusses monopoly, which is a market structure in which there is only one firm that is a price maker. This part of the book is particularly useful for students who are interested in the relationship between market structure and firm behavior.

The fourth part of the book is devoted to a discussion of the firm's financing decisions. It begins with a discussion of the firm's capital structure, which is the mix of debt and equity financing. The author then discusses the firm's investment decisions, which are the decisions about how much to invest in new capital. This part of the book is particularly useful for students who are interested in the financial aspects of the firm.

The fifth part of the book is devoted to a discussion of the firm's strategic decisions. It begins with a discussion of the firm's entry and exit decisions, which are the decisions about whether to enter or leave a market. The author then discusses the firm's pricing decisions, which are the decisions about how much to charge for its products. This part of the book is particularly useful for students who are interested in the strategic aspects of the firm.

THE HISTORY OF THE UNITED STATES

The history of the United States is a complex and multifaceted story that spans centuries. It begins with the early Native American civilizations, such as the Mayans, Aztecs, and Incas, who built sophisticated societies in the Americas. The arrival of European explorers in the late 15th and early 16th centuries marked the beginning of a new chapter in the continent's history. The Spanish, French, and British established colonies and fought wars for control of the land. The American Revolution (1775-1783) was a pivotal moment that led to the birth of the United States as an independent nation. The Constitution was drafted in 1787, and the country grew through westward expansion, territorial acquisitions, and the Civil War (1861-1865). The 20th century saw the United States emerge as a global superpower, leading the world in the Cold War and playing a central role in the development of the modern world. Today, the United States continues to be a major force in international affairs, facing new challenges and opportunities in the 21st century.

# SONGSTER.

**Our New Six-Hole Plain Range, for Wood or Coal, with or without  
Water Back.**

**EVERY RANGE WARRANTED;**

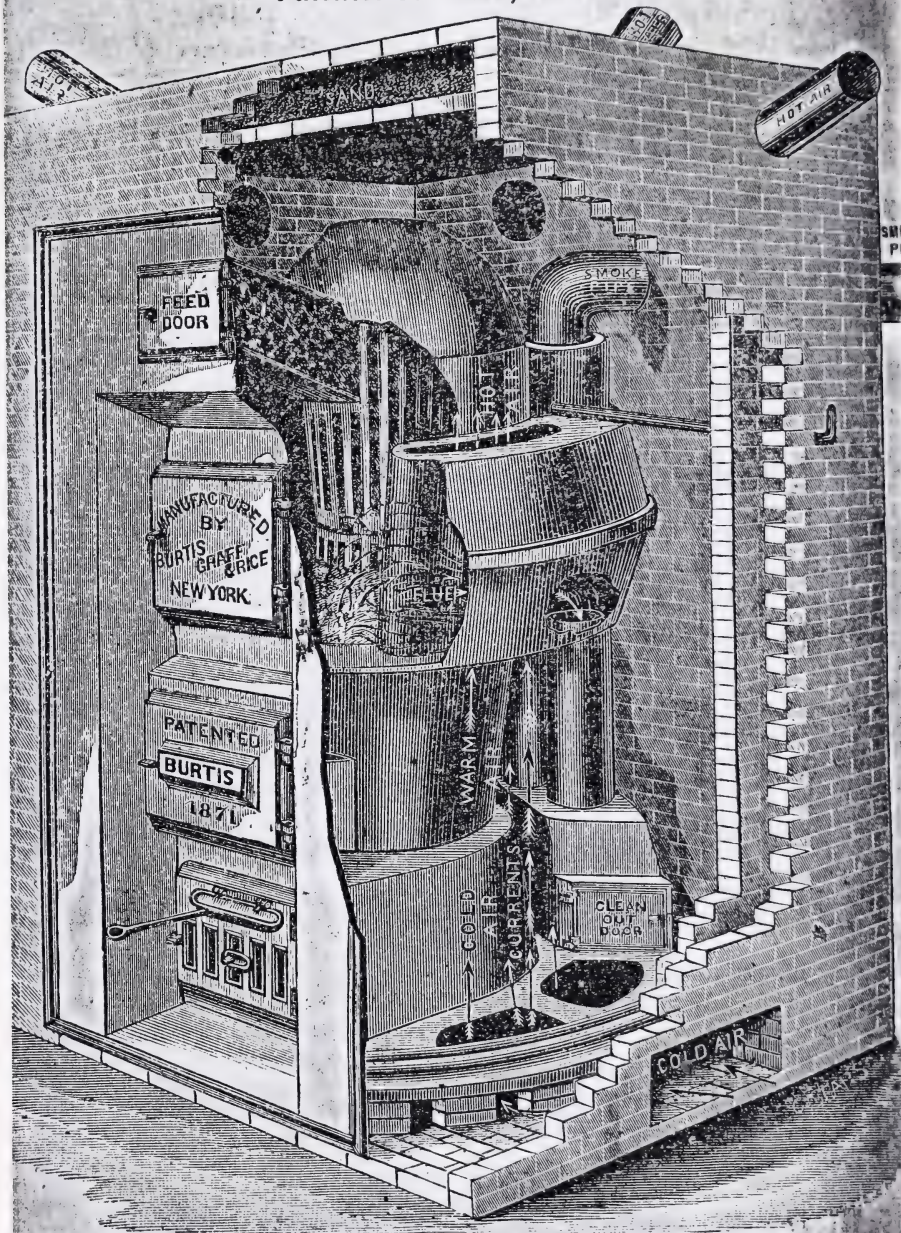

We claim that in **STYLE, ORNAMENTATION** and **OPERATION** there is **NOT THE EQUAL**  
to this Range offered in the Market. Address all orders to

**BURTIS, GRAFF & RICE, Manufacturers,**  
**206 WATER ST., New York City.**

# The "Burtis" Furnace.

Patented June 6th, 1871.

BASE-BURNING OR SURFACE-BURNING, BRICK-SET OR PORTABLE.

Sold by our Agents Everywhere.

# The "Burtis" Furnace.

## 1.—Its Peculiar Construction.

*Every joint is horizontal* and double packed, making the escape of gas impossible.

*Every part is cast iron*, so that you will have no sheet-iron tubes or drums to burn out or rust out.

*Every square inch* is direct radiating surface, making it relatively the most powerful heater in the world.

*Every flue is easily accessible*, so that to clean the surface thoroughly, not a bolt will have to be removed.

*Every part* at all liable to get out of order may be replaced without taking down the heater.

## 2.—It Excels all Others.

*In the Extent of its radiating surface.*

*In its combustion flue and chamber combined.*

*In the supply coal magazine.*

*In its perfect operating Grate.*

## 3.—Valuable Testimony.

*The essential features* which we insist upon in order to have a complete hot air furnace, we find anticipated in the scientific construction of the **Burtis Furnace**, and it cannot fail to meet with great success.  
—From *The Manufacture and Builder*.

Leading Architects and Builders have pronounced the **Burtis Base Burning Furnace the most desirable furnace ever invented**, in that it has the largest radiating surface, consumes its own gases, is a perpetual burner, and circulates the air in the purest state and largest volume. We have ordered one for our residence.—*N. Y. Evening Mail*.

## 4.—Why Purchase the Burtis Furnace?

*Because* it is the result of years of study; *is scientifically constructed*; avoids every objection to furnaces hitherto offered to the public, and **CANNOT FAIL TO PLEASE YOU**.

*Because* it has no sheet iron pipes or drums, is very durable, consumes all the gases, and **WILL RETAIN FIRE ALL WINTER**.

*Because* it forms no clinkers in the fire-pot; **CANNOT GET OUT OF ORDER**, may be easily cleaned, and is the most powerful heater in the world.

*Because* it will warm your house with a **HEALTHFUL ATMOSPHERE**, may be perfectly controlled, and any ordinary servant can manage it.

**BURTIS, GRAFF & RICE, Manufacturers.**

206 Water Street, NEW YORK.

# THE BURTIS

FIRE-PLACE HEATER.

*Self-Feeding. Base-Burning.*

WHAT WE CLAIM OVER ALL OTHERS :

Greater Power—Greater Convenience—Greater Economy—  
Greater Beauty—Greater Durability—Base-Burning—  
Self-Feeding—Revertible Flues—Easily  
Cleaned, Etc., Etc., Etc.,

WHAT WE PROMISE :

Every Heater shall be well made and mounted, and warranted  
to give satisfaction.

BURTIS, GRAFF & RICE, Manufacturers,

206 Water Street, NEW YORK.

# THE BURTONS

## COMBINED

### FIRE-PLACE HEATER AND FURNACE.

---

1st. *It is Self-Feeding and Base-Burning*, and consequently is a *perpetual burner*. We guarantee that if the Reservoir be kept filled, and the Grate be shaken twice each twenty-four hours, *the fire will not require re-kindling during the entire winter*. If this be not so, we will take back our heaters, and refund the money paid for them.

2d. *It is most Durable and Powerful*. It is all of *Cast Iron*. We might construct it of sheet iron much cheaper, but in a little time it would become spotted with rust, and soon would be ruined.

*In power, there is no heating apparatus equal to it*. Its revertible concentric flues form three distinct heating surfaces, which are in immediate contact with two ascending sheets of air, so that the products of combustion are wholly expended within the heating chamber, or are radiated directly into the room.

3d. *It has a "Duplex" Counter-Action Grate*. There is no Grate equal to it in the world. It never clogs; clinkers never accumulate in the fire-pot; the fire never need get low; a child can shake or dump it.

4th. *It has the largest and only perfect Reservoir in use*. It will hold a supply of coal for twenty-four hours, and is so constructed that it absolutely prevents kindling through the reserve coal in the Reservoir. This feature alone is worth the price of the heater.

5th. *It is a Perfect Burner*; consumes its own gas; is controlled by one damper; will scarcely ever require repairing; a child can clean every flue; is free from dust when the grate is shaken; is unequalled in Beauty, Power, or Convenience; is worth ten times its cost to any one requiring such an invention.

---

## THINGS TO REMEMBER.

"Your Fire-Place Heater is perfect."—T. H. TODD, Ed. Star.

"We could not get along without it."—T. H. BOYNTON, N. Y.

"Fully overcomes all the objections hitherto urged against fire-place Heaters."—R. F. WEIR, M.D.

"Far exceeds my expectations."—Rev. Dr. HALL.

 We have thousands of similar testimonials.
